7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

The subject tree (T1) is identified as being a fully mature Holm Oak {Quercus ilex}. It is situated just inside the road frontage hedge south of the drive entrance.
Current application proposal: Crown reduce the southern and south-east sector by approximately 2m.
Drop crotch reduction to reduce canopy crown spread in area of asymmetrical growth.
No material greater than 50mm diameter to be removed where practicable.
Dead wood in order to remove material greater than approx. 40mm in diameter.
Work to be undertaken in order to:
a. Maintain T1 in proportion to the area in which it grows and ensure its continued amenity value.
c. Mitigate potential risk of nuisance caused by encroachment upon the fabric of No 7 Park Crescent which is of concern to the current property owner.
All work to be undertaken in accordance with BS3998 2010- Tree Work Recommendations.

8. Trees - Additional Information

For all trees

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.
