

[illegible]

This architectural drawing shows the rear elevation of a building. It features a series of vertical elements on the left, possibly chimneys or a wall section, with height markers ranging from 44.73 to 53.85. The main structure has multiple levels with windows of various shapes, including arched and rectangular. Labels such as 'Brick', 'Timber', 'Tile', and 'Loose' indicate different materials and components. A central entrance area is marked with 'Timber' and 'Brick'. The right side shows a gabled section with a height of 44.50. The drawing is a technical line drawing with no shading or color.

This architectural drawing shows the rear elevation of a building, characterized by a complex roofline with multiple gables and a prominent chimney on the left. The facade is composed of several distinct sections. On the far left, a gabled section features a large window with a decorative surround and a door below it. A central section contains a large arched window and a door. To the right, another gabled section has three tall, narrow windows. The far right section includes a staircase and a door. The drawing is heavily annotated with dimensions, material specifications (e.g., 'Brick', 'Tile', 'Stone'), and structural notes (e.g., 'UP', 'DOWN', 'L', 'R'). A north arrow is located in the upper right corner.
