

Hayling Heli's News

(Printout of email sent 22nd March 08)

Hi Lads

Well it's been quite a good start to the year with some very flyable weather on many weekends (not so good as I type this!). Easter is coming up fast and I would like to get all heli's noise tested ASAP. Noise testing this year will be done according to the procedure on page 66 of the 2007 BMFA handbook, section entitled Helicopter noise testing to avoid any disagreements. Dave has a noise tester, which he is happy for the club to use. Also Steve Charley has got Andy's noise tester and I'm sure will help. Contact me, Dave or Steve Charley (hope that's OK Steve) to arrange for your heli to be tested.

We have five new members in the club this year so please make them welcome.

Names are as follows:

Roger Wilkes

Terry Burley

Phil Moore

Mick Mew

Craig Puckrin

Bill Lewis has had an operation on his foot this week, so won't be very mobile for a while. I'm sure we all wish him a speedy recovery.

Of course you've all been busy on the long winter evenings doing detailed maintenance checks on your heli's!! Just a reminder, no Bank Holiday Monday flying. So here's to plenty of safe enjoyable flying this summer.

John Barrett

Chairman Hayling Heli's
