

Site and Surrounding Area:
The existing site refers to a detached building comprising mainly of brick and block construction with a medium to high percentage of windows / glazing. The surrounding area comprises of mainly residential property. The general public access the premises via the front door that faces onto Snowberry Crescent.

The proposal seeks to:
Install fascia signage and some window graphics to the shopfront where necessary.

Conclusion:
The proposed scheme has been designed to compliment the buildings visual identity and fit within the surrounding area. The signage will be manufactured to a high level of quality with few visible fixings and a minimal, elegant style. The fascia signs are positioned at high level that does not cause any obstruction. The applicants are pleased to report that they operate a successful business providing an important facility to the local community as well as providing local employment
