Dear Mrs. Haywood,

Thank you for your email of the 26th March 2014 and the opportunity to comment upon the application. Having considered the application I have the following comments to make with reference to crime prevention.

It is possible to access the rear boundary treatment from the adjacent car park. To provide for the security of the dwellings a robust boundary treatment should be erected, it should be 1.8m high and topped with 300mm of trellis.

A small car park for residents parking is to be provided to the side of the dwellings. To deter members of the general public from using this car park, which can lead to conflict, the parking should be clearly marked as residents parking. To further reduce the potential for conflict each dwelling should be allocated a parking space.

If I can be of any further assistance please do not hesitate to contact me.

Yours sincerely,
