

Heritage Statement for:

4 Mill Lane, Langstone

Building Process:

On all areas the contractor is to take great care on the execution of the works so no further damage is caused to the building.

The proposed works:

The works have all been annotated on the plans submitted (Drawing, 12126/01, 02 & 03). The works include:

Demolition of the existing 3 bedroom house, the house is in a dilapidated state. The house will be replaced with a 3 bedroom house.

The current house does not contribute to the Conservation Area; the age of the house is unknown and has been extended through the years. The house materials are brick, clay hanging tiles. The house can also not be seen from any Highway.

The proposals will enhance the Conservation Area with a better design using vernacular materials.
