Daphney

It has not been proposed that Woodcroft Lane would be used for construction traffic, and as discussed with Chris Fletcher last week, it would be limited to the provision of services for the 5 units to be accessed off Woodcroft Lane as set out in your email.

It is the intention to route the construction traffic from Eagle Avenue along the new access point.

Hope this helps

Chris

Chris

I have received a number of calls from the residents of Woodcroft Lane concerned that they have heard that the Woodcroft Lane would be the main access for construction traffic. Following our discussion last week I was of the understanding that construction traffic would use Eagle Avenue and the new access road with only limited construction traffic such as vehicles relating to the provision of services for the 5 dwellings in this area from Woodcroft Lane.

Can you please advise if my understanding is correct, and confirm the intended routing for construction traffic.
