Re: Telecommunications Mast, verge opposite 371 Havant Road, Havant

Proposed Development: Application to determine whether prior approval is required for the position and appearance of 1No 17.5m high replacement pole and 2No equipment cabinets.

I refer to the above application under the Town & Country Planning Acts passed to this Service for comment.

I have read the enclosed proposal and have no comment to make as the proposed development is replacing the current equipment with similar and therefore there are no noise issues anticipated or previously recorded for this site.

Please do not hesitate to contact me if you wish to discuss any of the above matters raised or would like further explanation.

Duncan Hector
Environmental Health Officer
