

Hayling Heli's

9th Sept 2006

PRE NOTIFICATION OF ANNUAL FEE INCREASE 2007

Dear Member

Hayling Heli's has been running now since 2000 and the annual fees have remained the same at £24.00 per year (46 pence per week £2.00 per month) which does not allow much flexibility for any group requirements.

The farmer has been very good about the price of the field and has never asked for more money but this year he will be paid more for the field to help ensure the use of the field is maintained and worth his while to let us keep it. In addition to this we are now purchasing some equipment for the group by the way of a JR buddy box and a possible frequency checker etc and we also have the BBQ costs etc.

Despite having approx 30 members, the field is only used by a handful of enthusiasts and the majority of the members never attend the field at all, despite having paid their membership. One of the main reasons the fees are being increased is to help ensure that members do use the field and do not take up spaces which would be well appreciated by new members and beginners who do want to fly.

The re-newalls packs will be sent out as usual the last week in December and should be sent back at the latest by 14th Jan 2007.

The annual fee for 2007 will be £78.00 per year which equates to £1.50 per week £6.50 per month. For the quality of the field and the times it can be used I believe this still represents good value for money.

Regards

Clive
