Hi

Please add to Meridio and Web as Agent email and amended phasing plan.

Thanks

David

David

The intention is not to allow any occupancy of units until the footpath is available, I have just noticed when comparing the programme and road phasing plan that this would entail amending the plan to extend phase 2 to include the footpath this I have done and attach a revised plan to indicate this.

I have asked Stuart Michael Associates to correct their Construction Management Plan which will be forwarded when available.

Regards

Ian Wood
