To whom it may concern,

My name is Clive Jolley and in the year 2001 I founded the model flying club known as "Hayling Helis".

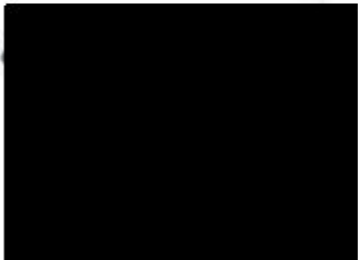

The club with the consent of the land owner, the late Michael Camp used "Verner common" to fly model helicopters and did so throughout my time as club chairman. Verner common is situated on the East coast of Hayling Island well away from any residential areas.

In 2007 I handed over the running of the club to John Barrett and members still fly on Verner common to this day.

Mr Camp was informed and happy for the group to continue using the field with the same restrictions on flying times and number of members thereby

Causing no increase in inconvenience to third parties

Clive Jolley
