Our guarantees

Silverwood guarantees for 10 years the good appearance and adhesion of the paint finish used on the painted timber cladding. We only use water based products and are therefore without danger for the user and the environment.

With the CTB B+ certification Silverwood guarantees; the quality and effectiveness of the timber treatment process (Treatment product certified CTB P+) and compliance with the CE marking standards.

Silverwood was one of the first French manufacturers to opt for a new generation of environmentally friendly timber treatment products. Our timber preservation is guaranteed 10 years.

Silverwood is committed to CE marking the entirety of its coloured timber cladding range in order to ensure the traceability and optimal consumer.
