Richard

In respect of the above application I have the following comments:

No tree removal is required to facilitate this project. The supporting arboricultural evidence is comprehensive and provided that the methodology prescribed in this MS & TPP report is strictly adhered to (inclusive of site monitoring works) the trees will survive the development unscathed and to continue to grow on safely and healthily in the future.

A further condition to provide full details relating to the foundation design will be required prior to any works being undertaken so as to ensure the protection of T3 is fully met.

Therefore I have no objections to this scheme in arboricultural terms.

Thanks
J
