Subject: Homewell House

David

Further to our meeting this afternoon regarding the application made by Havant Housing Assoc to redevelop Homewell House and provide 14 no 1bed 1person flats as supported accommodation.

I can confirm my support in principle to this development as it will provide accommodation which is in very short supply in this borough. I believe this development will provide move on accommodation for those clients of HHA who have been assessed to be able to live independently with low level support.

The location of the site will be very favourable for HHA to manage the scheme as it is within easy walking distance from their offices in East Street therefore providing continuity to the residents. HHA have a good reputation locally for providing a good quality service to their tenants and I believe this will be a very useful resource in the centre of Havant providing the residents with easy access to all local facilities.

I hope this is helpful

Regards

Julie
