Dear Mr Eaves

applic no APP/13/01111
The Meadows St Peters Road Hayling Island

In response to your e-mail dated 22nd November, I return the Flood Risk form herewith.

I have advised my clients on the Preparation for Floods provisions in regard to the easiest way to dry out and placing electrical points. I have specified a construction to have regard to ground heave.

My clients propose a bund-wall around the extension as a protection in their absence which seems to me to be a very sensible approach.

Yours sincerely

David J Brookwell
