39 Beach Road Hayling Island

Richard

In respect of the above application I have the following comments:

No tree removal is required to facilitate this project and the Oak tree will survive the development unscathed and to continue to grow on in the future. Although its condition is showing signs of decline and as such I have advised the owner to have it inspected by a Tree Surgeon.

The only Arb condition I would place on this application is for a protective fence - Herres type to be used to section off the garden prior to any development on site. This fence should run from north to south extending the full width of the garden from where the patio ends and the grass area begins.

Therefore I have no objections to this scheme in arboricultural terms.

Thanks

J
