

Sally,

I know Les has already responded to this one. In line with Les's response, have no adverse comments - however I am aware that HYC have had difficulty with contamination conditions on the adjacent site, so I thought it prudent to get some comments regarding contamination on file given the previous use of the application site as a breakers yard, and given that the submitted documents imply that HYC are taking ownership, as opposed to leasing the site.

Best Regards,

Jon
