

To support Proposed External ATM at: Hayling Island Post Office
5 Elm Grove, Hayling Island,
Hampshire, PO11 9EB

The Post Office itself resides on Elm Grove, it provides a valuable service to the local community to which the ATM will greatly improve.

Currently there is off road parking to the rear of the Post Office. It is a carpark used for Post Office customers.

The proposed ATM should not affect parking or transport at the location as it is aimed at providing an additional service to the Post Offices existing local customers and local residents who generally travel by sustainable means such as walking, cycling and public transport. Installing an ATM at the location may help to reduce the need to travel to facilities further afield, thereby reducing the need for private car travel and helping to sustain a local community. It is stated that money withdrawn locally is generally spent locally; this can then lead to wider social and community benefits, such as helping to improve air quality, widening social inclusion through promoting greater environmentally friendly travel choice to and from the Post Office, promoting healthier lifestyle habits.
