11/00213

4 Silvertrees, Emsworth.

Proposal.
Crown reduce by 30% 2 no Hornbeam.
Works to reduce shading and for maintenance purposes.

Comments.
The two Hornbeam trees in question are small mature fastigiated specimens located prominently on the western frontage of the property.

Both Hornbeam trees are in good overall condition and both trees have been pruned and minimally crown reduced previously.
The proposal to crown reduce the trees appears to be reasonable in this instance, as it should allow these two trees to be retained in this location.

Consent Granted.
4 Silvertrees, Emsworth.
Two small mature fastigiate Hornbeam trees located on the western frontage of the property:

Crown reduce by no more than 30% or approximately 2.5 metres, to leave a strong framework of healthy small-diameter branches and twigs.

J01 BS 3998: 2010
J03: a) Crown reduce by no more than 30% or approximately 2.5metres, to leave a strong framework of healthy small-diameter branches and twigs. Remove deadwood as necessary.

J09: 12 months from the date of this decision notice.

The applicant shall give at least 10 days notice of the proposed start date for the approved works.
