Subject: planning application APP/11/01767 6 Towers Garden

Dear James

Further to our telephone conversation yesterday I have been able to talk through your application with the Team Leader for this area. We still require a first floor plan as this shows further information that the Case Officer will need to consider, ie other windows to this room etc. Also, we will need to know which panes of the new/proposed window will be opening, can you supply a plan to illustrate this detail please?

Many thanks,

Jacky Clark
Technical Officer
