Attachments: DocConsult01.pdf

Dear Sir/Madam,

Re: APP/13/00824 The South Downs College, College Road, Purbrook

Thank you for consulting us regarding the above application. The site is located in an area of archaeological interest. There is a Scheduled Monument of a Roman villa to the east of the college buildings and the full extent of the area of archaeological sensitivity is uncertain but could extend into the car park area where this temporary building is to be located. While the potential for archaeological remains is not believed to present an overriding concern there is the possibility that some archaeological remains relating to the villa may be encountered during groundworks associated with the development. The groundworks are small in scale and so recording could take the form of a watching brief. I would advise that this be secured through the attachment of an archaeological condition to any planning consent that might be granted. For instance:

That no development take place until the applicant has secured the implementation of a programme of archaeological monitoring and recording (watching brief) in accordance with a written specification that has been submitted to and approved by the planning authority.

Should you or the applicant have any queries please do not hesitate to contact me.

Yours Faithfully,

Dr Hannah Fluck
