Subject: RE: Dunsbury - conditions

A2(g)

g) Details of future SUDS management and maintenance arrangements including **proof of** adequate financial provision and a named body responsible for management plus production of a detailed management plan.

Otherwise, with severe reservations about the loss of S106 provisions for Bonding to protect the community downstream from any unforeseen physical or hydrological issues arising from the implementation of the SUDs scheme(s) which by their nature are empirical and contain currently unproven assumptions, OK. I want that last bit kept on file.

Best wishes

Steve Mountain
