IMPORTANT! - RE FOOT & MOUTH EPIDEMIC

As you are aware, at present there is a Foot & Mouth crisis throughout the UK.

Unfortunately as there are animals in adjacent fields the farmer who owns the site has informed me that the fields are therefore "off limits" for the present time, until all is under control. Keep an eye on the news and when restrictions generally are being lifted, give me a call to check that our patch is clear BEFORE you go down to fly.

The membership is now growing quickly, however, despite the crisis, some of you have not returned your forms and as we are restricting the number of permits issued, I would recommend that you send them in as soon as possible to avoid disappointment.

I am sure that the weather will soon change as summer approaches, restrictions will be lifted and we will be able to get flying.

See you there.

Regards

Clive
