

Dear Resident;

Ref: Homewell House, Havant

Thank you for taking the time to come and view our proposals for the above mentioned site. We would be pleased if you could provide us with some feedback in the below box on our proposals whether good or bad.

What are your thoughts on the proposals:

Good use of overell space recycling sheltered garden. Very improvement on current building which needs urgent renovation. Small housing units are needed in rear of town centre. Plan for cycle, rather than car park is very sensible. Good Luck!

What are your thoughts on the proposals:

The new proposals as presented show a sympathetic treatment of an old building, seriously in need of renovation. The proposed Housing Association use will ensure that the quality of the building, its environment and ongoing maintenance is properly kept up to a good standard. The proposed use by the Housing Association will also provide a good mix of inhabitants within the town centre.

What are your thoughts on the proposals:

I prefer this proposal compared to the original. I think 14 individual dwellings (with no car owners) will be more of a 'fit' with the existing community in Homewell (which would not really be suitable for children/families). I like the 'link' between the buildings and prefer the windows (and removal of flat roofed extension) on the new proposal. It looks like the original building (in all its glory) but spruced up and ready for a new life.
