

Application No. APP/13/00423/LBC

Address: 32b, High Street, Emsworth PO10 7AW

Comments

This application complements application APP/13/00323 on which I have already commented. I commented on both proposals at pre-app stage. See papers relating to GEN/12/01201. The intended internal re-planning would make for a more workable and pleasant interior, without compromising its architectural / historic interest". The minimal external changes are acceptable. I have no reason to differ from the view expressed at pre-app. The structural information and window details are satisfactory. Support.
