Subject: FW: APP/13/00745 - Land east of Langstone Technology Park, 2B Langstone Road, Havant. Discharge of Conditions

Dear Ms Smith,

Having reviewed the archaeological evaluation report I am happy that the results confirm that there are no archaeological features on the site that would warrant any further mitigation of impact. Therefore I would be happy to advise the Planning Authority that the archaeological condition could be fully discharged.

Should you have any queries please do not hesitate to contact me.

Yours Sincerely,
Dr Hannah Fluck
