For the attention of David Eaves

Dear Sir

Provision of footbridge, Southleigh Road, Havant

I refer to the above planning application for a pedestrian footbridge over an existing level crossing which was passed to me for comment.

Pre-application discussions regarding the design of the footbridge have taken place with Hampshire County Council structural engineers and the principle of the footbridge is accepted and welcomed to improve pedestrian links across the rail crossing.

It is anticipated that Hampshire County Council would be responsible for maintenance of the bridge once constructed. Consequently the bridge would be subject to Hampshire County Council's design check process. I have received some comments on the design as submitted within the planning application and provide them below:

- No more than 12 steps should be present in any flight;
- Lighting details would need to be agreed with Hampshire Street Lighting;
- CCTV would need to be independent of the bridge, as opposed to within it;
- The structure would need to be of painted galvanised steel;
- A secondary colour may be required to break up the appearance of the structure

Director of Economy, Transport and Environment
Stuart Jarvis BSc DipTP FCIHT MRTPI

These matters are the subject of detailed design with regards to the potential adoption of the structure by Hampshire County Council and can be dealt with under any necessary agreements or licences post planning. I can confirm that I raise no objections to the application subject to the following conditions:

There shall be no commencement on site until such time as the construction details have been submitted to and approved in writing by the Planning Authority

Reason: *To ensure the construction of the bridge is safe and suitable for maintenance*

There shall be no commencement on site until a Construction Traffic Management Plan has been submitted to and approved in writing by the Planning Authority

Reason: *In the interest of highway safety*

I trust the above is clear, however should you have any further queries please contact David Murphy on (01962) 846826.

Yours sincerely

Steve Jenkins
