Subject: Station Road, Hayling Island

Dear Daphney

Further to our meeting this morning please find enclosed the Brent Geese Mitigation Strategy which is submitted in support of Hayling Island Builders current planning application for development at Station Road.

As you know the strategy has been developed in close consultation with Natural England and the County Ecologist; however, I understand that you will now seek formal comments from these consultees as part of the decision making process.

I trust the enclosed is in order; however, please do not hesitate to contact me should you have any queries.

Regards
Charles
