Subject: Application APP/13/00752 Proposed Development Site Manor Farm and Copseys Nursery, Hallett Road, Havant

Dear Sir/Madam,

Re: APP/13/00752 Proposed Development Site Manor Farm and Copseys Nursery, Hallett Road, Havant

Thank you for consulting us regarding the above planning application. The site has been subject to archaeological investigations, the fieldwork phase of which has now ended and identified Bronze Age occupation. The post excavation analysis has yet to be completed and the findings reported.

While I am satisfied that the fieldwork has been completed at the time of writing the post excavation work has yet to be undertaken. I am expecting a post-excavation assessment that sets out the findings as well as any additional analysis that might be needed. This will also set out the plans for the public dissemination of the results. Given that this work is still outstanding I would advise that it be secured through the attachment of a suitable condition, for instance:

'Following completion of archaeological fieldwork a report will be produced in accordance with an approved programme including where appropriate post-excavation assessment, specialist analysis and reports, publication and public engagement.

Reason: To contribute to our knowledge and understanding of our past by ensuring that opportunities are taken to capture evidence from the historic environment and to make this publicly available.'

It may be that the work to satisfy this condition will be completed before the application has been determined.

Should you have any questions please do not hesitate to contact me.

Yours faithfully,

Dr Hannah Fluck
