

DESIGN & ACCESS STATEMENT

IN RESPECT OF

30 High Street, Emsworth, Hampshire, PO10 7AR

We do not feel that this proposed signage will be detrimental in any way to either the building itself or surrounding area, as there are currently other stores in the vicinity with similar signage in situ.

The proposed signage will not have any affect on the vehicular access to or from this property or indeed affect the access to the building or once inside the Building.

Our client has given careful thought and consideration to this scheme and hope that the Council will consider it favourably.
