Hi Rachael

New agricultural access off the south side of the B2177 Portsdown Hill

Highway Comments

The proposed plans don't show any visibility splays, this is a 40mph section and will therefore need to meet the visibility requirement (2.5m x 90m).

Portsdown Hill Road is heavily used in both directions during peak times, any stationary vehicle would cause a risk, therefore I recommend that the gate is set back to allow the tractor to exit the highway before the gate is opened.

I therefore recommend defer until the above details are provided.
