

Report on Condition of 2 Field Maples on Park Road South adjacent to Mill Pond

The 2 field maples were assessed on 2/4/13:

Field Maple A to be removed is a small suppressed sub-standard example of a common/abundant species.

Field Maple B to be pruned is a sub-standard example of a common/abundant species; the proposed pruning will have no adverse effect on its health and future development, and little or no adverse effect on its appearance/amenity value.
