☒ Yes ☐ No

Tree Preservation Order Details

Do you know which TPO protects the tree(s) enter its title or number below

Identification Of Tree(s) And Description Of Works

Identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the Act where this is available. Use the same numbers on your sketch plan (see guidance notes).

Provide the following information below: tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position etc) or reasons for not wanting to replant.

1k (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

Species: uncertain, possibly a sub-species of MACROCARPA
Works: Lifting crown to 3 metres above the ground.
Reason: The crown covers almost the whole of the lawn. Lifting it will provide more light to the lawn and the rear windows of the house.
The tree is almost as tall as the two storey house.

For all trees

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.
