Ref: Revised Planning permission for raised decking area at 200 The Dale.

Dear Heather

Following your site visit I have amended the plans for the dividing privacy wall to reflect the dimensions that we agreed as follows:

- The full height of the wall will be 1900mm above the finished decking floor level
- The full length of the wall will remain the same as the original plans which is 3080mm the full width of the decking perpendicular to the rear of the property.

If you require any more information please do not hesitate to contact me.

Regards

Gary Madden.
