19/07/2012

Proposal: Single storey front extension.
Site: 7 Oaktree Drive, Emsworth, PO10 7UJ.
APP/12/00616

Dear Sir,

Thank you for your letter of 04/07/2012.

Please find attached a plan of the sewer records showing the approximate position of a public sewer crossing the site. The exact position of the public sewers must be determined on site by the applicant before the layout of the proposed development is finalised. Please note:

- No development or new tree planting should be located within 3 metres either side of the centreline of the public sewer.
- No new soakaways should be located within 5 metres of a public sewer.
- All existing infrastructure should be protected during the course of construction works.

Furthermore, due to changes in legislation that came in to force on 1st October 2011 regarding the future ownership of sewers it is possible that a sewer now deemed to be public could be found crossing the above property. Therefore, should any sewer be found during construction works, an investigation of the sewer will be required to ascertain its condition, the number of properties served, and potential means of access before any further works commence on site.

The applicant is advised to discuss the matter further with Atkins Ltd, Anglo St James House, 39A Southgate Street, Winchester, SO23 9EH (Tel 01962 858688).

Any new connections will require a formal application for a connection to the public sewer to be made by the applicant or developer.

We request that should this application receive planning approval, the following informative is attached to the consent:

"A formal application for connection to the public sewerage system is required in order to service this development, please contact Atkins Ltd, Anglo St James House, 39A Southgate Street, Winchester, SO23 9EH (Tel 01962 858688), or www.southernwater.co.uk".

Yours faithfully,

D [redacted] ces
