

PERMIT

Eastoke Community Association
1 Wheatlands Avenue, Hayling Island PO11 9SG

Design and Access Statement

- Pedestrian and vehicular access will be through the existing gate.
- Type of fencing is Palisade W Pale Triple Point to provide better security to the community hall as the existing chain link fencing is in very poor state. This will also provide a much better appearance and still give
- The visual impact will be enhanced for neighbouring properties.
- The replacement fence will remain at the same height of 1.8m to provide security to the community hall.
- By replacing the fence from chain link to vertical bar will greatly improved security and also this type of fence is far more making it last longer.
- Replacement of 1.8 chain link on concrete posts to the front of the property and replacement of 1.8 chain link with extended with barbed wire to the west of the property.
