Welded mesh panels CODI®M (medium)

Multipurpose perimeter solution

CODI®M is a multipurpose fence suitable for all applications including sports facilities, playgrounds and schools, industrial and commercial sectors. Functional and modern fastening systems ensure easy installation of CODI®, while taking into account the need for a durable and robust system.

CODI®M combines a mesh of 200 x 50mm with 6mm wires, providing a fencing system that is secure and aesthetic.

Strong points

Design

- A wide range of mesh sizes and post dimensions.
- Large choice of colours.
- High quality finish.
- Easy to install.

Strong

- 6mm double horizontal and 6mm vertical wires.
- Standard RHS post - size depending on application and fence height.

Security

- Standard height up to 5m, other sizes on request.
- Small spikes on top of panel provide an extra deterrent.
- Anti-vandal fixings.
- Cranked extensions available clad with mesh or barbed wire.

Adaptable

- Suitable for all applications including sports facilities, playgrounds, schools, industrial and commercial sectors.
- A range of matching gates is available to complement the CODI® system: swing gates, tracked sliding gates and cantilevered sliding gates.

	RAL 7030 Grey	Galvanised
	RAL 5011 Blue	

MAINTENANCE OF NETS.

Waterlooville Cricket Club recognise that our nets will require maintenance both to maintain usability and to ensure safety. We also recognise that there should be no cost to the Borough Council.

To achieve this we will take the following actions;

1. The net facility will be insured against damage with under our current insurance policy with Arista Insurance Limited.
2. We have agreed with the supplier Notts Sports that they will carry out an annual maintenance and safety check and will undertake any major remedial work outside of the Club's ability to perform.
3. We have produced an internal maintenance document which is attached to ensure regular routine maintenance and safety checks are carried out internally. We believe we have sufficient skills within the club to perform adequate repairs to maintain safety for all but major damage.
