Dear Mrs Clark,

Please find attached a copy of application to lop overhanging branches from the Horsechestnut tree in the garden of 20 Leigh Road Havant, neighbour of no.22 where the tree has been given permission to be felled..

I did not understand that there should have been two applications or that there was a time limit for which I apologise

However, I have filled out a second application and the tree with which I wish to replace the Horsechestnut, in the neighbouring bed, is a Liquidamber. This will subsequently grow to 100 ft in height and have a spread of 75 ft.

I trust this is an adequate reply to your letter dated 15 October.

If I have made a mess of it this time please excuse me.

I have spoken to Mr Gargett who knows this tree well and who told me that it would be acceptable to request that branches overhanging my property be lopped as far as our boundaries.

Yours faithfully
