DESIGN STATEMENT RE: 13 SOUTH STREET FASCIA

We have specifically designed the shop Fascia for Spires Hair Company to be sympathetic with the building and neighbourhood.

We initially consulted with the planning office as to what may be acceptable, and have chosen for our design neutral colours of a cream background with black lettering, and traditional styling.

The fascia is flush to the building and offers no obstruction to the public.

The materials we have used present a classic look, with a subtle effect and a non- shiny finish.

We feel that our shop front is in good keeping with the area.
