This is a copy of the title plan on 1 MAY 2012 at 08:26:18. This copy does not take account of any application made after that time even if still pending in the Land Registry when this copy was issued.

This copy is not an 'Official Copy' of the title plan. An official copy of the title plan is admissible in evidence in a court to the same extent as the original. A person is entitled to be indemnified by the registrar if he suffers loss by reason of a mistake in an official copy. If you want to obtain an official copy, the Land Registry web site explains how to do this.

The Land Registry endeavours to maintain high quality and scale accuracy of title plan images. The quality and accuracy of any print will depend on your printer, your computer and its print settings. This title plan shows the general position, not the exact line, of the boundaries. It may be subject to distortions in scale. Measurements scaled from this plan may not match measurements between the same points on the ground. See Land Registry Public Guide 7 - Title Plans.

## Flood Risk Indicator

Title number and property description

HP136491

105, Station Road, Hayling Island, PO11 0EE

### Flood risk

The land registered under the above title number does not fall within a floodplain and is more than 300 metres from the nearest floodplain.

The land is in an area which fell outside the extent of a floodplain, at the time of the Environment Agency's assessment of the likelihood of flooding. Generally this means that the chance of flooding each year from rivers or the sea is 0.1 percent (1 in 1000) or less.

This result was produced on 1 May 2012 based on Environment Agency flood risk data that was current as of 4 October 2011 and Land Registry data that was current as of 29 April 2012. The Flood Risk Indicator is based on the most up to date Environment Agency flood data available at the date and time of your search.

## Disclaimer

The information contained in this document is for general information purposes only. The flood risk information is provided by the Environment Agency. You should note that:-

The Flood Risk Indicator shows only the predicted likelihood of flooding from rivers or the sea for defined areas. It is not detailed enough to account for precise properties.

Individual properties may not always face the same chance of flooding as the areas that surround them. There may be particular occasions when flooding occurs and the observed pattern of flooding does not in reality match the predicted patterns shown on the Environment Agency flood data.

The Environment Agency do all they can to ensure that the flood data reflects all the data they possess and that they have applied their expert knowledge to create conclusions that are as reliable as possible. The flood data from the Environment Agency may by its nature not be as accurate as might be desired, might be misused or misunderstood. For the above reasons the flood data may not be accurate or completely up to date.

If you believe that a particular property does not face the chance of flooding shown on the Environment Agency flood data, or if you have information that you believe we may not have taken into account, then you should contact your local Environment Agency office or see the Environment Agency website for more information on flood data.

We will endeavour to keep this information up to date and correct but make no representations or warranties of any kind, express or implied, about the completeness, accuracy, reliability, suitability or availability with respect to the flood data. Any reliance you place on such information is therefore strictly at your own risk.

Further information concerning the risk of flooding in this area, incorporating flood defence data, is available on the Environment Agency website service.
