

All dimensions to be checked on site prior to commencement of any construction works. Fiqued dimensions are to be used in preference to scaled dimensions.

[illegible]

The image contains two architectural drawings of a proposed building, labeled 'West Elevation' and 'East Elevation'.

West Elevation: This drawing shows the side profile of the building. It is a three-story structure with a red brick facade. The ground floor features a large entrance area with a glass door and a small window. The second and third floors each have four rectangular windows. A small blue staircase is visible on the right side of the building. A green car is parked in front of the building, and a green bush is located near the entrance.

East Elevation: This drawing shows the front profile of the building. It is a three-story structure with a red brick facade. The ground floor features a large entrance area with a glass door and a small window. The second and third floors each have four rectangular windows. A small blue staircase is visible on the right side of the building. A green car is parked in front of the building, and a green bush is located near the entrance.

The image contains two architectural elevation drawings of a building, labeled 'North Elevation' and 'South Elevation'.

North Elevation: This drawing shows the front facade of the building. It features a series of windows, including a large set of double-glazed windows on the left side. A small, blue-shaded area is visible near the top left, possibly representing a roof or a specific architectural feature. The building is situated on a grey base, and a small, light-colored rectangular object is visible on the right side.

South Elevation: This drawing shows the rear facade of the building. It features a series of windows, including a large set of double-glazed windows on the left side. A small, green-shaded area is visible near the top left, possibly representing a roof or a specific architectural feature. The building is situated on a grey base, and a small, light-colored rectangular object is visible on the right side. Labels with leader lines point to specific features: 'PVCu double glazed windows', 'Through colour render', and '01-14 silverer house'.

The image contains two architectural elevation drawings of a building, oriented vertically. The top drawing is labeled 'West Elevation' and the bottom drawing is labeled 'East Elevation'.

West Elevation: This drawing shows the side profile of a three-story building. The facade is light-colored with a grid of windows. There are two sets of blue stairs: one set on the ground floor and another set on the second floor. A small, dark, rectangular structure is visible on the roof. To the left of the building, there is a green, textured area representing landscaping and a small orange structure. A car is parked on the street in front of the building.

East Elevation: This drawing shows the opposite side of the building. It features a similar facade with a grid of windows. A set of blue stairs is located on the ground floor. A small, dark, rectangular structure is visible on the roof. To the right of the building, there is a green, textured area representing landscaping and a small orange structure. A car is parked on the street in front of the building.
