Subject: 48 Frogmore Lane - Pelmet light
Attachments: Frogmore Lane Scale Drawing.pdf

Dear Jacky – further to your call we have now shown the pelmet light on the drawing. It is a standard enclosure with fluorescent tubes in a powder coated aluminium enclosure with clear polycarbonate diffuser. As I have stated on the drawing, the unit is not visible from the road as the canopy overhang obscures the unit itself. We hope that this amendment meets with your approval but should you have any further queries I would be pleased to assist.
