Dear Sir/Madam

APPLICATION FOR PLANNING PERMISSION

As requested by yourselves, please find enclosed my application forms applying for planning permission in respect of 178a West Street, Havant.

The premises are currently in use as a Car Wash business and I have been operating the site for the last eight months although it was also operated as a car wash by the previous tenant.

Our hours of business are from 9am – 5pm, seven days a week. We hand wash all vehicles and do not use any machines, other than a jet wash. Parking is adequate within our premises and we provide seating and toilet facilities for our customers.

For your information, the premises were visited by the Environmental Health Officer and he confirmed that the drains met the required standards and issued me with the appropriate certificate.

I trust this application meets with your approval and in closing I would like to state that I was unaware that planning permission had not already been granted in view of the fact that I took over the premises when it was already an established car wash business.

Yours faithfully

Zagros Aumar
