EMSWORTH BAPTIST CHURCH

We are aiming to create a significant building...

- A relevant, accessible building that places the church in the heart of the community
- A safe place for people to explore their spirituality
- A venue for youthwork
- Our site occupies a significant position on the roundabout in the centre of Emsworth. We are seeking to demolish the existing Church and adjacent 'Hall', using the extended site to create a modern building that will serve the present and future needs of church and community.

Proposed spaces include:
- Main Auditorium and Multi-purpose Hall
- Large welcoming Foyer
- Meeting Rooms
- Pre-School Nursery / Playroom
- Kitchen Facilities

Surveys in 1983 and 1995 revealed structural problems including subsidence

Sept 2000 voted to rebuild

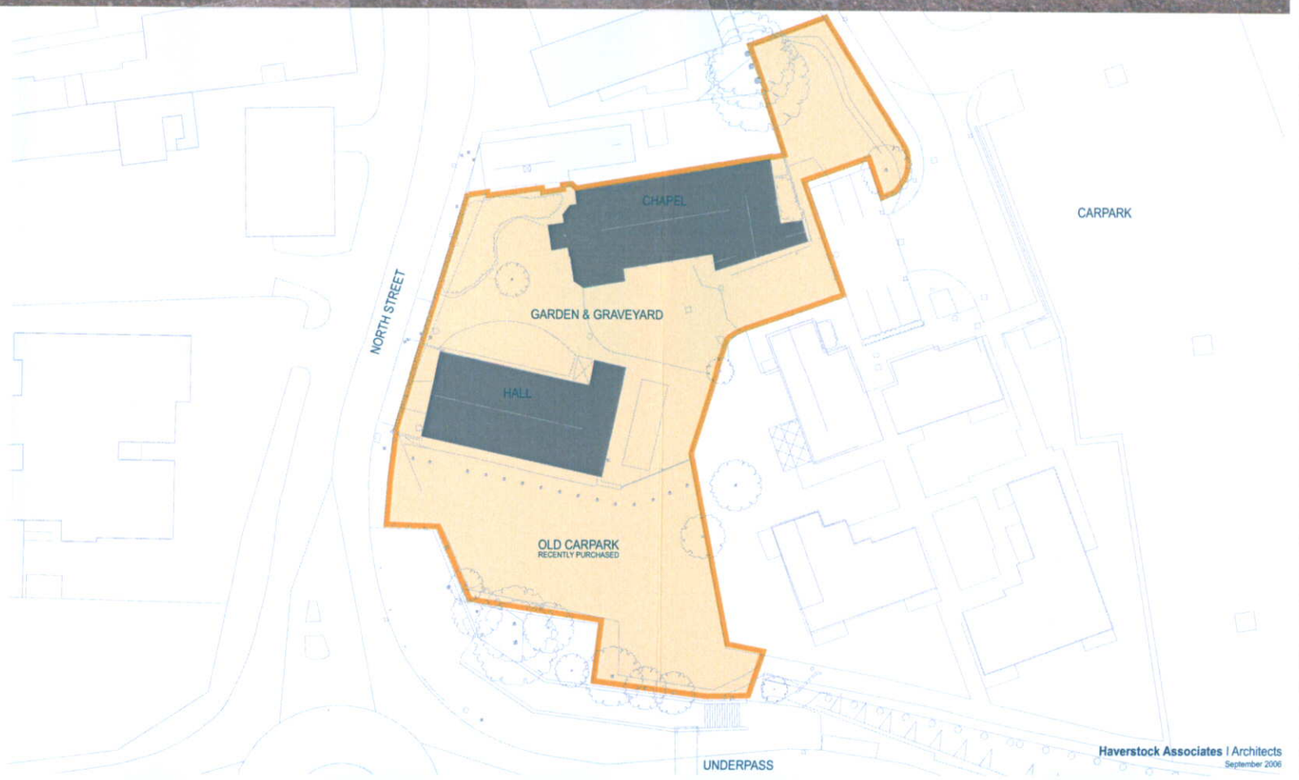

May 2002 bought carpark land

May 2004 - March 2005 - architect selection process - choose Haverstock

May 2006 - Began feasibility study (ends in October)

Sept 20th and 30th - consultation sessions (Sept 30 open to all)
