16th June, 2011.

Dear Nicholas,

South Africa Lodge.

I have had a letter copied to me from Dr. Whapham and her family which I enclose for your information.

The family make the point that the landscaping at the entrance of the site particularly is unattractive, and that no attention has been paid to planting local fauna.

Could you therefore please attend on site with Pete if appropriate, give us your advice, and make the necessary arrangements and purchases to make the whole entrance area attractive and interesting.

With best wishes,

Yours sincerely,

Dr. John Sargent.
