Dear Mr Dawes

Please find enclosed my Application for a Lawful Development Certificate for an Existing Use.

I am unsure as to how to explain what I wish to change the class from, as I believe at present 14 Mengham Road does not appear to be documented as having any particular planning 'class' at all.

The application relates to the first floor beauty salon which has been in business for over 10 years. I believed hair and beauty to be in the same category 10 years ago and the first floor then had been used as the Club Rooms hair-dressers since 1995. Before that a retail area for Clarkes Shoe shop for 15 years.

I opened as a beauty salon on the first floor in November 2000 and have enclosed 2002-2003 tax return which is the earliest accounts I still have for the salon, then known as Waterfalls Spa & Beauty as on page 11 of the form.

I also enclose statements from customers who attended the salon in 2000 and 2001 and would be prepared to give a sworn statement if necessary. I do have many more regular existing customers who are willing to give statements if required.

I hope this is acceptable.

Yours sincerely,

Julia Cutbush
