Access Statement: Planning Stage

Project Name: Proposed New Havant HWRC
Project Officer: Pippa Greenway-Cross, Waste and Resource Management Section, Economy, Transport and Environment Department.
Revision dates: 31/08/11

	Inclusion issues	Explanatory notes	Comments	Action taken
1	Project Summary	Summarise the project, its aims for inclusion and potential users	Relocation of the Household Waste Recycling Centre (HWRC) from the front of the former incinerator site on Harts Farm Way, Havant to the back of the former incinerator site. The new site will be a large 'split-level' HWRC. The potential users would be local Householders depositing their own bulky household and garden waste.	Planning Application to be submitted.
2	Consultation	Access, conservation or planning officers	Planning Officers and Access Officer contacted.	Consultation with Planning Officer & Access Officer.
3	Standards & other legislative issues	eg. Local planning guidance, Licensing laws, Disability Discrimination Act, Listed Building	Planning Authority guidance obtained. Disability Discrimination Act complied with.	See above.
4	Pedestrian approach to the site	Catchment areas, different approach routes, gradients, barriers etc	Pedestrians do not use the HWRC and there is no provision in the design of the new HWRC for them to do so.	
5	Vehicle approach & parking	Disabled persons' parking bays. Travel distances to entrances. Traffic vs pedestrian conflicts. Drop-off zones for cars/taxis/mini-buses	Parking bays for disabled customers are provided. Parking bays for non-disabled customers are provided. There is direct access from the parking bays to the waste containers and the recycling area all located on the upper area of the HWRC. All waste container servicing is carried out from the separate lower area of the HWRC.	Signs. Speed controls.

	Inclusion issues	Explanatory notes	Comments	Action taken
6	Pedestrian routes within site	Widths of paths, passing places, gradients and materials used, lighting, seating	Level site. Walkways 1.6m wide with regulation height guardrails, between waste containers. No artificial lighting on Site. The HWRC is only open during daylight hours.	See Dwg Nos. General Arrangement 17-509026-GA/01A and 17-509026-GA/04A
7	Entrances	Level entrance, steps and/or ramps. Canopy	The HWRC entrance and exit routes are level and designed for vehicles only.	As above.
