24th August 2010
Your Ref APP/10/00463

Dear Mr Weaver,

Further to your letter dated 16th August 2010, and subsequent telephone conversations with Mr Peter Tanner and a lady from your department, I have taken the following steps to rectify the shortcomings of my original application.

1. Please find 4 copies of an up to date Ordinance Survey map, with the barn outlined in red, and our other property outlined in blue.
2. Please find 4 copies of drawing of front elevation, showing roof lights.
3. As the work has only been to the roof of the barn, there have been no changes to the footprint of the building, and boundary treatments are unchanged.
4. As shown in part 9 of my application form, my Design and Access Statement was included, (my ref FB1 to FB5). I was advised by Planning Aid South to present it in this format, as it is a retrospective application the photographs clearly explain the works.

I hope you are now able to progress the application.

If you need to arrange a site visit could it please be, before September 10th, or after September 23rd.

Yours truly,

Beverley Cotton.
