HAVANT BOROUGH COUNCIL
27 AUG 2010
RECEIVED

Heritage Statement for:

20 South Street, Emsworth

The proposed works:

The works have all been annotated on the plans submitted (Drawing, 9115/09). The works include:

Outbuilding:

The existing outbuilding has been demolished and will be rebuilt. The materials used will matching existing:

- Clay Tiles used on the Roof the building using the same roof pitch.
- Clay Bricks used for the walls.
- New Velux windows.
- New timber frame doors and windows will be introduced.

On all areas the contractor is to take great care on the execution of the works so no further damage is caused to the building.

A full survey has been carried out on the project which is enclosed. A structural engineer (MR Colin Wood) has also been appointed and his details and suggestions will follow in due course.
