20 February 2011

Dear Sir

129 WEST LANE, HAYLING ISLAND
EXTENSION AND IMPROVEMENT WORKS
Yr ref. APP/10/00717

Further to your letter of 11th January 2011 returning the papers relating to this Application, we are now submitting an amended Application (dated 20 February 2011), as agreed.

This accords with discussions with Mr David Williams and, in particular, his summary email dated 9th December 2010 – 15:11 to ourselves in which final additional recommendations were set out: as follows:

- The submission of an Arboriculturist assessment
- The setting back of the proposed garage by 4.8m
- The reduction in size and setting back of the gates, piers and walling proposed at the East entrance boundary.

We have been advised by our Clients that the Arboricultural Report has been submitted to the Planning Department by them.

So far as the preferred alterations to the garage setting back and the entrance boundary walling are concerned, we enclose our revised drawings. In this respect some original drawings (as attached) should be removed from the Application and revised drawings substituted, as follows:

Original drawing 3297/10 should be removed and drawing 3297/10A substituted.
Original drawing 3297/11 should be removed and drawing 3297/11A & drawing 3297/11/01A substituted for it.
Original drawing 3297/07A should be removed and drawing 3297/07B substituted.

I am enclosing the original Application Form together with the un-affected original Survey and house plans/elevations together with the additional requested

photographic appraisal of the existing tree planting in the adjoining verge in Saltmash Lane.

I have re-dated the submission as a new Application. I note that no additional plans submission fee to the Council is required.

[redacted]

Encs. Original Planning Application and unaffected drawings, as above

4no. copies of new drawings:
3297/07B, 10A, 11A and 11A/01A
2no. copies of newly dated sections 11 to 17 of Application Form.

Copy to Mr and Mrs R Jones
